Type of tool:

Practical tools and advice

Target group:

Local governments

Short description:

The Toolkit for Urban Inclusion in Arab Cities was prepared in response to the recommendation of members of the Coalition of Arab Cities against Racism, Discrimination, Xenophobia and Intolerance. Member cities have identified a need for reference material that is relevant to their context and that addresses priority urban inclusion issues, in line with Sustainable Development Goal 11 and the New Urban Agenda. The Toolkit provides practical, viable guidance to city actors in the region to promote urban inclusion; as well as advice proven by the actual experiences of Arab cities and inspired by their accumulated knowledge in planning, implementing and evaluating their local programs and projects. It is therefore a guide “from Arab cities, to Arab cities”. The Toolkit covers four priority topics, namely: public participation, access to information, sport for youth inclusion, and citizenship and human rights education.

Why use it:

These examples from Arabic cities show how important youth sport involvement is and provide a guide to planning, implementing and evaluating sports activities for youth.

Topics covered in the tool:

Sustainability, Stakeholder involvement, Education, Community
