Type of tool:

Guidelines

Target group:

Policy makers and project managers

Short description:

The comprehensive and practical guidebook seeks to create greater awareness and capacity in how to use sport as a tool for sustainable development among policymakers and project/programme managers within and beyond the sport sector. This will enable increased commitment, evidence and investment in policies, programmes and projects that use sport in development.

Why use it:

It is a guide for translating policy into practice and for effective programme management.

Topics covered in the tool:

Sustainability, Stakeholder involvement, Inclusion, Management
