**Type of activity:**

Promotion of sustainability across  
National Olympic Committees

**Short description:**

The vision of the ASAP project is to move from words to action, from guidelines and recommendations to their strategic implementation, and, ultimately, from ad-hoc initiatives to integrated sustainability across the operation of National Olympic Committees (NOCs). In concrete terms, the mission of the project is, for the “mentee” NOCs, to create, adopt and start implementing integrated sustainability strategies in their organisations, and for the “mentor” NOCs to further improve their operations by sharing and learning from each other and from other experts in the field.

**SDGs covered by this activity:**

**Key topics covered by this activity:**

Mentor-mentee programme, sharing and learning from each other
