Type of activity:

Training

Short description:

United Action for Children is a member of the “Streetfootball World Network” and a Centre Host for the “FIFA Football for Hope Centre” in Cameroon. Through this programme, UAC encourages children to organise cleanup campaigns in their respective communities, set up cooperative activities such as farms and thematic discussions on issues affecting their growth and development. UAC also organises job shadowing and football competitions among children and youth.

Community Sports for Development Programme: Under this programme, UAC uses the power of football to mobilise children and young people, particularly in rural communities, to channel their energy towards productive initiatives, thereby making them become development agents in their respective communities.

SDGs covered by this activity:

Key topics covered by this activity:

Elementary education, vocational training, poverty alleviation, food security & nutritional practices, capacity building & training, environmental sustainability
